

CELLO

o o o o

SIMPLY SCANDINAVIAN

o o o o

The CELLO collection is a series of storage furniture made with your needs in mind. The sideboards have plenty of room for all your beloved things. The design is sleek with its clean lines and bright colours. The contemporary designed furniture does not scream for attention but will give your home a harmonious and delicate look.

The white body is combined with white or oak fronts. The metal material reappears in the legs and the handles and adds to the appearance of a design of simplicity. The white fronts have a nice structure that are visible through the lacquered surface.

Details

The fronts are made of structured oak melamine or lacquered structured melamine. The top and sides extend over the doors which gives the furniture a nice detailed frame. The gap between the thin top and the base makes the top look like it's floating. Legs and handles are made of aluminium which is covered by a matte lacquer to create a genuine feeling.

Made in Sweden

The technical knowledge and sense of design from Tenzo pursued the development all the way from idea to production. The creation process of CELLO is genuine and precise. All coloured parts are painted in our own factory with the latest technology. After the painting process, all pieces of furniture are inspected and packed in our E-commerce approved packaging.

Soft-close

The hinges of CELLO have integrated soft-close and the drawers have a soft self-closing function. The soft-close catches the doors and drawers and makes it close slowly, silently and softly.

Designed by TENZO

The product is designed by the product team at tenzo. The team always work closely together with the production to make sure that each piece is designed to fully benefit the skills and capacity of our production facility in Sweden. There are no middle hands or compromises that change the design from its original idea.
