DISPLAY YOUR TREASURES

Art is a one of a kind when it comes to stability. Few other shelves can stand on its own like Art can. It doesn't have any cross braces to disrupt the clean look but it is yet completely steady. It is beautiful in its own appearance and is suitable as a room divider. The shelf is also a good display location for your treasures.

The sides and feet are made of solid, oiled oak and the shelves are made of 19 mm chipboard lacquered in high quality white paint. The oak not only makes it a strong construction, it also allows Art to age beautifully.

BESS

o o o o

SCANDINAVIAN RETRO

Bess is a collection of modern Scandinavian design intertwined with the classic appearance of the 50's. It is a collection of designed simplicity, where the details are made with a "less is more" mind-set. The legs are fixed in a steady solid oak frame that keeps the furniture from slouching even if you put weight on it. The solid oak is recurring in the handles which is a small element that defines the typical appearance of Bess.

Bess is the perfect furniture collection for the home that wants to add something with a genuine style and character but don't want the looks of one piece to take over the room. Add something out of the ordinary, exciting simplicity in its purest form.

HARRY

••••

POP YOUR HOME

Harry is both fresh and elegant. The furniture design creates contrasts – soft rounded corners with black metal framed legs gives the pouffe and the sofa the best of two design styles. Transform your interior to a sparkling colour mix or choose subtle colours for a calmer Scandinavian look. Harry makes an impression as a single piece of furniture but can also be an eye catcher if you mix them together. Harry is the obvious choice when making an addition to any room that needs an elegant seating place.

MALIBU

o o o o

MALIBU® THE ORIGINAL SINCE 1998

The rebel - In the 50's and 60's many young people broke free from the traditional social norms, wanting to release from their parents' generation. They didn't want to follow the old standards, but aimed to express their individuality through music, fashion and cars. New subcultures emerged such as Rock n' Roll and Surfing which let the young people enjoy their freedom and show their personality. This young generation wanted to break free from the society they were born in, they wanted to be different, they wanted to show who they were. Therefore, Malibu is different and expresses your individuality. Malibu is young, rebellious and colourful!

Malibu is inspired by the styles and ideas of the youngsters from the 50's and 60's. Rutger Andersson created a colourful retro design, bringing the feeling of that generation back to the presence. The contradiction of modernity and retro design makes the furniture timeless but unique.

PATCH

o o o o

SWEDEN SINCE 1934

SIMPLICITY & ELEGANCE

The product may look simple at first glance, but the closer you look you'll see that behind both design and production lies hours of care. Each base is made in solid oak which allows the legs to have its characteristic form, a detail that expresses northern design and harmony.

All doors and drawers are equipped with a push-to-open feature. The clean lines appear clearly when no handles are needed. The appearance of Patch is a delight to the eye; especially for those who appreciate symmetry. Yet the symmetry is something out of the ordinary - the legs are made with a graphic twist that highlights the unique cut that is characteristic for Patch.

It's in the details

The legs of Patch are something out of the ordinary. They are made in solid oiled oak and have a unique cut that is a characterizing design detail. Every line and chamfer is thought through and truly makes Patch a work of art.

Added value

On all Patch items it is possible to choose a top in oak instead of white lacquer. That makes the oak from the leg recurring in the top plate. This way the oak creates an artistic frame which adds another highlight and brings sophisticated symmetry to the product.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Design by: Thomas Eklundh

Thomas finds inspiration for a new design in almost everything, but mainly in film, art, and literature. With the ambition to make the everyday a little more exciting, he places great emphasis on both ideas and handcrafted details.

MINIMALISTIC STYLE

Profil is a classic design with a clean look - no clutter, just beauty. The fronts in oak veneer adds a visual interest to the otherwise white collection. The white lacquered surface that meets the oak creates a refreshed, modern look that will complement contemporary interior spaces and can be used in a living room or dining space as an attractive storage option.

Profil is a suitable fit for the room that needs a highlight with an expression of minimalistic Scandinavian design. It has a genuine style of character but is still subtle in its appearance. A lot of integrity with minimalism in mind, a guiding principle of northern design.

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Details

Made in Sweden

Uno is manufactured in Sweden in Tenzo's production facility that is specialised to make furniture painted with high quality lacquer. Tenzo's production facility in Sweden allows us to provide furniture collections in a wide range of colours.

French design:

The French carry an air of sophistication without looking like they've made the effort to do so. Naturally, this influences the interior design with an exquisite appeal and unconcerned aesthetic. France has a long, genuine history in design and their reputation is widely known and beloved.

Details

The handle is a fun addition to the otherwise simple design. It is the element with a big E and the thing that makes Uno special. The colours are carefully chosen to give a mature appeal.

Design: Olivier Toulouse

Design says something about who you are, that's why Olivier is inspired by people. By watching humans, new designs emerge.
