MALIBU® THE ORIGINAL SINCE 1998

o o o o

The rebel - In the 50's and 60's many young people broke free from the traditional social norms, wanting to release from their parents' generation. They didn't want to follow the old standards, but aimed to express their individuality through music, fashion and cars. New subcultures emerged such as Rock n' Roll and Surfing which let the young people enjoy their freedom and show their personality. This young generation wanted to break free from the society they were born in, they wanted to be different, they wanted to show who they were. Therefore, Malibu is different and expresses your individuality.

Malibu is young, rebellious and colourful!

Malibu is inspired by the styles and ideas of the youngsters from the 50's and 60's. Rutger Andersson created a colourful retro design, bringing the feeling of that generation back to the present. The contradiction of modernity and retro design makes the furniture timeless but unique.

The original

The Malibu® collection from tenzo has been on the market since the late 90's, and it is still going strong. It's an original collection that is well-known for its colourful variations and trendy way of resembling retro living.

Colourful eye catcher

The Malibu® collection has a large variety of colours. One for every taste! Some models have up to 12 colours and go well with other products from the tenzo range.

Details

The feet and handles are made of shiny nickel that enhances the design of the product. The Nickel is neutral and allows the eye to give its full attention to the shape and colour of Malibu®.

Rutger Andersson

Rutger has over 30 years of experience within design and product development. He is an excellent designer of "less is more" and he doesn't embellish his creations with unnecessary decorations. His touch makes any product live up to its full potential. In his portfolio you will find a lot of successful designs, Malibu® is just one of them.
