PLAIN

SWEDEN SINCE 1934

Plain is all about expressing yourself. The module system gives you endless possibilities to design your dream sideboard. The design is timeless with its elegance and simplicity, the appearance follows the traditions of Scandinavian design – absolute style with minimum fuss. The system is designed by the Swedish designer Monika Mulder who “aims to create functional objects that are playful and pretty.” Plain is: great storage, pretty design and a playful way to build your own furniture.
The sideboards have a genuine feeling with top and bases made of lacquered MDF. The bases are also available in wood structure. The materials, clean lines and colours is a meeting between contemporary design and the Swedish nature. Take a look at some of our favourite combinations.
